ASHEVILLE, N. C., September 30—Indian summer, with its first fyint promises of the scarlet and gold glores of autumn that are to follow, has arrived at Asheville, and is giving substantial evidence of why the summer visitors here should remain longer as well as why the tourists who spend than the fort to take advantage of the won. derful climate and scenery effered at this time of year. The weather is notable, even in Asheville, where splendid climate is almost universal the year round and the guests at Gross. John (3), Joseph (3), cranwed from New Kent the open.

How to Absorb an

Unlovely Complexion

The face which is admired for its beauty must have a satin-smooth skin, pink and white and youthful looking. The only thing known that can make such a complexion out of an aged faded or discolored one—that is, a natural, not a painted, complexion—is ordinary mercolized wax. This remarkable substance literally absorbs the unsightly cuticle, a little each day, the clear, healthy, girlish skin beneath gradually peeping out until within a week or so it is wholly in evidence. Of course, such blemishes as freckles, moth patches, liver spots, blotches and pimples are discarded with the old skin. If you will procure an ounce of mercolized wax at the drug store, use like cold cream every night, washing this off mornings, you'll find it a veritable wonder-worker.

Another valuable natural treatment is a wash lotion to remove wrinkles which can be easily prepared. Dissolve an ounce of powdered savoilte in a half pint of witch hazel. Bathe the face in this and you'll find it "works like magic."—Adv.
